Payroll System

Payroll software automates Payroll Management. Payroll Software generates 100% accurate salary outputs, pay slips, statutory compliance reports, and much more in a matter of minutes.

Payroll software allows to manage Employee, bank information, statutory information and loan details. Generates and Prints the Payslips. Reporting on statutory information is available. The application data can be exported/imported to Excel in csv format. Provides the utility to backup and restore data.

A magnifying glass is positioned over a calculator. The lens of the magnifying glass is focused on a line of text that reads: "Payroll software allows to manage Employee, bank information, statutory information and loan details." The background of the image shows a stack of coins and a calculator, suggesting a financial or accounting context.

Payroll software allows to manage Employee, bank information, statutory information and loan details.
